

Title V EAW and Permit Presentation Follow-Up

Questions and Comments Raised at June 12th CAC Meeting:

PAL Permit

How long is the PAL permit in effect?

What other facilities have PAL-type permits?

How will the MPCA track compliance under the PAL permit?

How many violations of the PAL permit must occur before the MPCA takes an enforcement action?

How will the public be made aware of facility/unit changes under the PAL permit?

How is the MPCA made aware of facility/unit changes under the PAL permit?

What is the MPCA's policy as to the responsiveness to the public?

Environmental Review Process

Why not conduct an EIS?

Why should the CAC support the Koch and MPCA staff position (on a Neg Dec for further Env Review)?

What is MCEA's position on the Env Review?

Ambient Air Monitoring

The 98 data used for the (EAW, HRA, permit appl???) seems old.

Let the new ambient air monitors collect data before these actions are taken.

How does the MPCA use the ambient air monitoring data?

Does the MPCA rely on data from only one (1) air monitoring station?

Trust & Credibility

Several attendees indicated that they don't trust the MPCA and Koch (Barr was also implied).

Other

Will the fuel price investigations impact the lowering of emissions (vehicle, refinery???)?
